Manage travel emissions with the CHOOOSE Climate App for SAP Concur

Seamlessly measure, reduce, and manage your travel emissions with the CHOOOSE Climate App for SAP Concur

The CHOOOSE Climate app empowers measuring and reporting on travel emissions, and then reducing, removing, or offsetting to address them.

Travel emissions are automatically calculated based on the latest, industry standards. You can then search and select from carbon reduction, removal, and offset solutions to reduce your footprint or address unavoidable emissions.

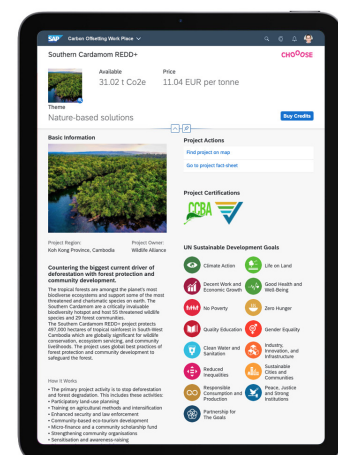

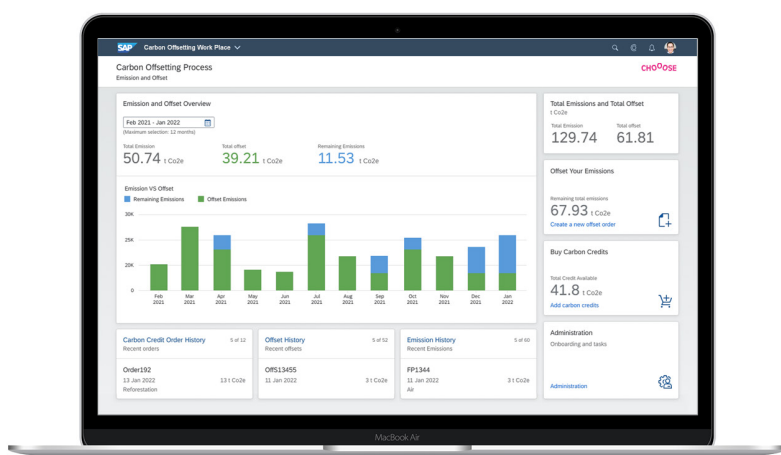

- High-precision emission calculations, automatically generated from your SAP® Concur® solutions travel data
- Track, manage, and report on the performance of your corporate program through the live carbon emissions dashboard
- Access and select from vetted carbon solutions in the same centralised system in which you already manage travel and associated expenses

In partnership with:

CHOOOSE

The CHOOOSE Climate App

- Easy to manage
- Greater visibility into emissions management
- Quality carbon solutions
- Enabling corporate sustainability through existing SAP Concur solutions

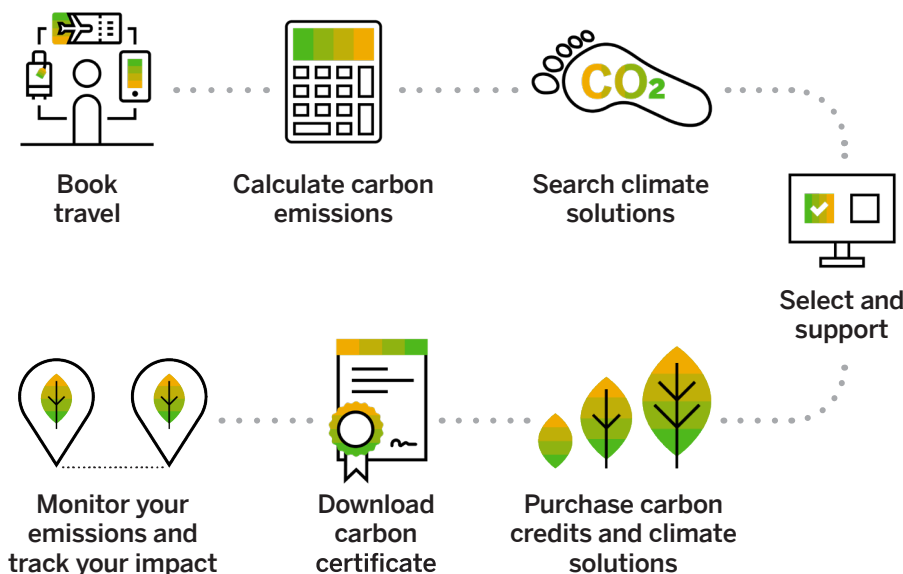

THE BEST RUN
